

## Highlights/Accomplishments:

## Community and Utility Services Report: February, 2017

- Hauled sixteen (16) loads of debris from behind DCUS building to clean-up the yard.
- Potholes were cold-patched on Brown Deer Road, as well as other locations throughout the Village.
- Crews added traffic bond (gravel shoulder) to the terrace area of Brown Deer Road.
- Completed roughly 23,000 linear feet of sanitary sewer cleaning.
- Completed a thorough cleaning and reorganization of the cold storage facility, the former DCUS main shop.
- Demoted a Utility Task Vehicle (UTV) to aid in making a final capital purchase decision.
- Assisted with the facilitation of a sanitary sewer main repair, which was bored through in the 2015 municipal water project.
