Sleepless in Seattle?

Sleep is increasingly recognized as important to public health, with sleep insufficiency linked to motor vehicle crashes, industrial disasters, and medical and other occupational errors. The National Institutes of Health suggests that school-age children need at least 10 hours of sleep daily, teens need 9-10 hours, and adults need 7-8 hours. The promotion of good sleep habits and regular sleep is known as sleep hygiene. The following sleep hygiene tips can be used to improve sleep.

- Go to bed at the same time each night and rise at the same time each morning.
- Avoid large meals before bedtime.
- Avoid caffeine and alcohol close to bedtime.
- Avoid nicotine.

Advice on Preventing Residential Burglaries

We would like to remind everyone of some things that residents can do to reduce their chances of becoming a burglary victim.

- Keep your homes properly lit and keep up the appearance that someone is home.
- Don't "advertise" valuables that may be inside your home.
- Secure your doors and windows; set and activate your alarm.
- Prepare before leaving on vacation.
- Stay vigilant.
